

PHASE 3 – PROJECT DESIGN PHASE

Project Title

Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Objective

The objective of this phase is to design the automated workflow for processing Standard Laptop requests.

Workflow Design

Service Catalog → Standard Laptop → Order Now → Request → Approval → Flow Trigger → Create Catalog Task → Hardware Assignment

Flow Design

Flow Name

Standard Laptop Task

Application

Global

Run User

System User

Trigger

Service Catalog

Action

Create Catalog Task

Catalog Task Configuration

- Request Item: Requested Item Record
- Table: Catalog Task
- Short Description: Laptop need to Configured
- Description: Laptop need to Configured
- Assignment Group: Hardware
- Approval: Approved

Solution

The workflow is designed so that after a Standard Laptop request is approved, Flow Designer automatically creates a Catalog Task. The task is assigned to the Hardware group for configuration.

Expected Outcome

The designed workflow provides a clear automated path from laptop request to hardware configuration.

Phase Conclusion

The project design establishes the structure and flow required to automate Standard Laptop procurement.
