

PHASE 8 – PROJECT DEMONSTRATION PHASE

Project Title

Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Objective

The objective of this phase is to demonstrate the working of the automated Standard Laptop procurement workflow in ServiceNow.

Demonstration Steps

Step 1 – Open Service Catalog

Open ServiceNow and search for Service Catalog.

Step 2 – Select Hardware

Open Hardware from the Service Catalog.

Step 3 – Select Standard Laptop

Find and open Standard Laptop.

Step 4 – Place Order

Click Order Now to place the Standard Laptop request.

Step 5 – Check Order Status

View the order status and open the Request Number.

Step 6 – Approve Request

Open the Approvers section and approve the request.

Step 7 – Open Requested Item

Go to the Requested Item section and open the requested item record.

Step 8 – Verify Catalog Task

Scroll to the Catalog Tasks section and open the task.

Demonstration Result

The created Catalog Task should display:

- Updated status
- Short Description: Laptop need to Configured
- Assigned Group: Hardware

Solution

The demonstration shows how the ServiceNow Flow Designer automatically creates and assigns the Catalog Task after the Standard Laptop request is approved.

Expected Outcome

The complete automated procurement workflow is demonstrated from placing the request through verification of the generated Catalog Task.

Phase Conclusion

The demonstration proves the intended workflow for automating Standard Laptop procurement and reducing manual intervention.
